COMPLIANCE TO SAMPLE

Compliance to sample cannot be absolute because there are tolerance margins due to product variations (colours, materials, sizes) or caused by environmental factors (light, humidity etc...). Colour reproductions on paper can differ slightly from original colours.

If the order is completed at different moments in time it is impossible to guarantee a perfect colour/facing match between the original layout and additional units.

FOR ORDERING, ALWAYS CHECK FOR AVAILABILITY OF FINISHES FOR EACH COLLECTION AND ITEM.

Acryl Glass panels are made from high quality scratch proof European acrylic sheets which have a glass effect, thus giving the appearance and depth just like real glass. This co extruded material combines the aesthetic advantages of real glass fronts with the processing and practical advantages of panels.

The Surface coated with range are totally anti-glare. They have very low opacity level, less than (or equal to) 5 gloss units. The Finish coating have thermal healing properties. In case of light scratches it is possible to repair the area using heat, which doesn't damage the surface but rather "heals" it, restoring its initial smoothness and compactness.
